Claim Objections

Claim 3 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 7. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim 7 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 3. When two claims in an application are duplicates or else are so close in

content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Claim Rejections - 35 USC § 102

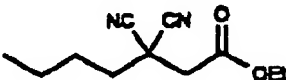

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated clearly by Roepel (Tetrahedron Letters 43 (2002) p.1973-1976) .

Roepel discloses the following compound:

product	yield(%)
	69

. This compound has inherently a pesticide activity. Furthermore, the introductory language of a claim drawn to the method of using the composition does not constitute a new use since the old composition possessed the property and applicants merely discovered this property. *In re Tomlinson*, 363 F.2d 928, 150 USPQ 623 (CCPA 1966). This is identical with the claims.
